Websites to Explore Auto Collision

1. I-CAR Academy – One of the best resources for students interested in collision repair, with foundational topics like disassembly, plastic repair, dent removal, refinishing, structural repair, electrical systems, and even advanced driver-assistance systems. (I-Car Academy)
2. Collision Repair Education Foundation (CREF) – Excellent for career exploration. Students can learn about different collision careers, find schools, explore scholarships, and even try an interactive Build-A-Car Simulator. (Collision Repair Education Foundation)
3. Collision Repair Education Foundation – Become a Student – Specifically geared toward students considering collision repair and explains the different opportunities available in the field. (Collision Repair Education Foundation)
4. I-CAR – Helps students understand that modern collision repair involves much more than bodywork, including vehicle technology, electronics, welding, mechanical systems, and ADAS. (I-Car)

★ These are the best websites for:

-  Learn the Skills: I-CAR Academy
-  Explore the Career: Collision Repair Education Foundation
-  See It in Action: Enoree Career Center
